

# FHIR JUMPSTART

Move from compliance to connected care.

**Healthcare mandates are accelerating.** **TEFCA** went into effect January of 2025, CMS interoperability deadlines begin in 2026 and Cures Act compliance remains uneven. FHIR Jumpstart helps you quickly move from fragmented systems to a secure, scalable Azure-based interoperability platform. We deliver production-ready APIs, governance and audit evidence in weeks, not months. Reduce risk, accelerate compliance and unlock innovation with 3Cloud's proven approach.

## Interoperability Reality Check

Fragmented EHRs. Mounting mandates. Innovation pressure. This is the world CIOs live in today.

Every missed milestone raises audit risk and stalls innovation. Most payers and providers, over 60%, struggle to meet CMS requirements,<sup>1</sup> citing API governance and conformance gaps. And while 84% of large hospitals enabled FHIR-based app access in 2024, only 66% of small hospitals did.<sup>2</sup> The gap is real, and growing.

Without an enterprise-grade, compliance-ready FHIR foundation, consistent security and validated conformance, scaling beyond a pilot isn't just risky, it's expensive.

**60%** of payors & providers struggle to meet CMS interoperability requirements.

**84%** of large hospitals enabled FHIR-based app access in 2024.

**66%** of small hospitals enabled FHIR-based app access in 2024.

## Compliance Clock

Three mandates.  
One shrinking window.

- **NOW**  
Cures Act gaps  
*Penalties risk active.*
- **JAN 2025**  
TEFCA in effect  
*Compliance obligations active.*
- **2026**  
CMS deadlines begin  
*Penalties tied to missed API requirements.*

## ACT NOW TO AVOID AUDIT RISKS.

FHIR Jumpstart accelerates compliance & unlocks innovation.

# Fast Track to FHIR Compliance

FHIR Jumpstart is an enterprise-grade, engagement that transforms complexity into a secure, scalable interoperability platform.

-  **FHIR Front Door** Azure Health Data Services & API Management.
-  **FHIR APIs** Patient Access, Provider Directory & Payer-to-Payer.
-  **Policy Governance & Security** OAuth2/ OpenID Connect for SMART on FHIR.
-  **Bulk Import/Export Pipelines** NDJSON bundles into Fabric for analytics & AI.

-  **FHIR Proxy & Integration** Routing, versioning, orchestration across EHR & claims systems.
-  **Conformance & Testing Assets** Postman collections, Inferno/Touchstone scripts, ONC(g) (10) evidence.
-  **Developer Experience** Configured APIM portal, sample calls, guides for rapid hand-off.

## FHIR Architecture

## Why FHIR Jumpstart Matters

**Interoperability isn't optional, it's a mandate.** But compliance alone won't future-proof your organization. 3Cloud's FHIR Jumpstart distills years of healthcare FHIR integration experience into a turnkey engagement. Let us build you a foundation that meets today's requirements and positions you for tomorrow's innovation.

Your next Azure engagement may be eligible for Microsoft funding

## Accelerate Your Azure Journey with 3Cloud

3Cloud is the premier pure-play Azure partner in the ecosystem with unparalleled expertise in all things Azure. We specialize in delivering top-tier Azure infrastructure, cutting-edge AI, robust data & analytics and ground-breaking app development. Leveraging our extensive experience, advanced tools and customized accelerators, we ensure the quickest time to value for your Azure-based projects.
