

The logo for 3Cloud, featuring the number '3' and the word 'Cloud' in a white, sans-serif font. A white cloud icon is positioned above the '3'.

MANAGED AI

Complete AI Care from Maintenance to Optimization

As AI continues to reshape industries, keeping your models agile, optimized and scalable is critical to maintaining competitive advantage. 3Cloud's Managed AI Services provide comprehensive support across the entire AI and Machine Learning lifecycle—from proactive monitoring and maintenance to continuous optimization. Our services deliver early and sustained value, empowering your organization to drive strategic AI and ML initiatives with confidence.

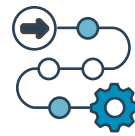

Expert AI Support

Top-tier AI and ML guidance
keep your AI initiatives
optimized and running

Streamlined Operations

Focus on core business
activities while seamlessly
scaling AI capabilities

Strategic Advantage

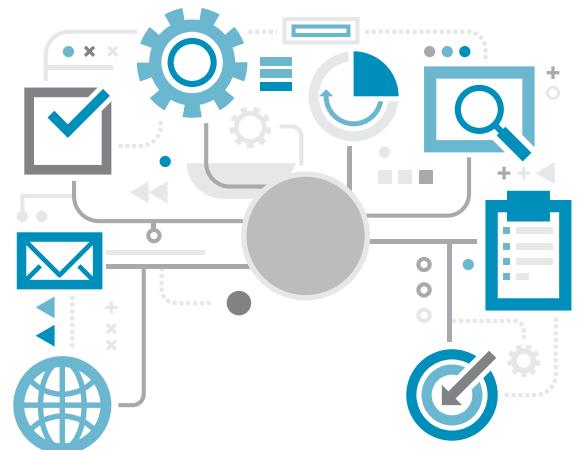

Drive long-term growth
and reduce costs with
scalable AI solutions

Managed AI Services include:

Model Performance Management ensures your AI models maintain high performance and quality, such as response times and user satisfaction. Addresses prompt drift and provides LLMOps and DevOps support.

Adoption & Impact Monitoring focuses on AI use case monitoring and management, ML engineering, feature development and continuous pattern monitoring to drive adoption and measurable business impact.

Platform Management provides AI platform management, dependable security, 24x7 monitoring, detailed runbooks and SLAs and insightful monthly reporting.

How It Works

Our team of experts handles the complexities, so you can focus on discovering new AI use cases to drive business growth. We'll help you ensure your AI capabilities keep pace with the changing landscape of your business, keeping you ahead of the curve and ready for the next opportunity.

Managed AI Service Offerings

Our AI Managed Services keep your AI models agile, optimized, and scalable. Say goodbye to the hassle of technical complexities and hello to greater operational efficiency, cost savings, and smarter decision-making. With our expert support, you can focus on driving innovation and strategic growth, while we maintain your AI and machine learning models.

Managed AI

- Azure OpenAI Support, Maintenance & Tuning
- Azure Cognitive Services Support, Maintenance & Tuning
- Azure AI technologies incident response & remediation
- Report & Dashboard Development
- Modeling & Performance Tuning
- Visualizations
- Advisory Services

Managed Machine Learning

- Azure Machine Learning Monitoring & Incident Response
- Machine Learning Operations Enhancement & Management
- Machine Learning Models Support & Tuning
- Machine Learning Lifecycle Management
- Data Collection and Preparation for ML Models
- Advisory Service
