

# MANAGED AVD

Ensure your users have what they need, when they need it.

Azure Virtual Desktop (AVD) is the backbone of modern workforce productivity—secure, scalable and always available. But when issues arise, even minor disruptions can ripple across your organization, impacting performance and bottom-line results.

From the health of individual virtual workstations to cost optimization and strategic guidance, 3Cloud's Managed AVD Services provide comprehensive, proactive support across your entire AVD environment. We help you stay ahead of outages, inefficiencies and overspending, so your teams stay productive and your business stays resilient.

## Key Capabilities

With 3Cloud's Managed Azure Virtual Desktop (AVD), you gain a fully supported, optimized and cost-aware virtual desktop environment—designed to keep your workforce productive and your IT team focused on strategic priorities.

### 24x7 Monitoring & Response

Continuous oversight to detect & resolve issues before they impact users.

### Host Pool Management

Rapid provisioning & configuration to support evolving business needs.

### Auto-Scaling Optimization

Intelligent scaling for performance & cost-efficiency.

### Image & Configuration Updates

Monthly updates tailored to your environment for security & stability.

### Reporting & Dashboards

Customizable insights into performance, usage & spend.

### Operation Enablement

We maintain a vigilant, 24x7x365 watch over your AVD infrastructure, so your team can focus on innovation, not incident response.

### Pool & Image Management

Using proprietary scripts and tooling, we optimize resource usage and performance. We also manage image updates to ensure security and patch compliance.

### Dedicated Account Management

Our experts work alongside your team to maximize the value of your cloud investment. This includes spend analysis, architecture reviews and ongoing strategic guidance.
